

# Meetaweetaak o Bingo!

Let's Play Bingo!

**Number of players:** 1+

**Requires:** 1 bingo card for each player (ensure each player has a different card)  
20-sided die  
Tokens (16 per player) -or- dry-erase marker if cards are laminated

**Object:** Be the first to roll a row of numbers on your bingo card.

In order to claim your space you need to say the correct number in Michif that matches the roll of the die.

Players take turns rolling the die, saying the number in Michif, then putting a token on their card if it has that number on it. The first person to get a row in any direction wins.

For a more advanced game, say a sentence with your number (see below for ideas).
